➤ **Point of Interest, *EMB 175***

- We are excited to announce that Envoy recently received our first EMB 175, the first of many to come.
- As mentioned in a previous newsletter we need for all aircraft fuelers to complete our new EMB 175 Training.
- We have received notice from many of completion, we are still waiting on a few more stations to respond.

➤ Point of Interest, *EMB 175*

- We need for all **aircraft fuelers** to continue to complete our new EMB 175 Training as soon as possible, *MTX0407 Aircraft Fueling Procedures*.
- The EMB 175 Training, *MTX0408 Fueling Management*, is now completed and ready for our designated **Train the Trainers** to complete. Once completed, you'll need to email us a copy of the *certificate* and also the *Designated Trainer Authorization* form so we can sign it, and send it back for your records.
- The training can be found on our website. **Aeme.aa.com**.
- Once training is completed by all of your **fuelers and trainers** we would like for you to send an email to msc.support@aa.com. Letting us know your company has completed the training so we can keep all our records up to date.
